

Bay Cane

Verdant® Bay Cane is a pure source of 100% Florida Sugarcane Blackstrap Molasses. Grown in the Everglades, Florida Sugarcane's muck soils contribute to a richer, fuller molasses than other sources. Molasses provides carbohydrates for soil microbial activity and enhance the organic matter in the soil.

APPLICATION RATES

Fairways, Lawns, Greens, Tees, Fine Turf, Sports Turf:
Apply 3-6 oz per 1000 sqft (or 1-2 gallons per acre) in foliar sprays
Corrective rates for low-organic matter: 2-5 gallons per acre

Use sufficient water for thorough and uniform coverage of foliage or soil. Always make a bench test to check compatibility of unknown mixes. Avoid tank mixing with heavy-phosphate fertilizers or alkaline products. Apply in early morning or late evening, avoid excessive heat or dry conditions.

GUARANTEED ANALYSIS:

Blackstrap Molasses 100%

Derived from: Florida Sugarcane Blackstrap Molasses

Seller warrants that products will be labelled as required under state and federal law and that they conform to the label description. Any nonconformance must be reported in writing to Seller within thirty (30) days after purchase as a prerequisite to maintaining any claim against Seller.
